Hi Carol,

Thanks again for taking the time to review the content.

There were two comments (attached) for which our content strategist has requested clarification. Can you please confirm the following:

- **Unit 1, Post 3.**
 - Current text: Emergency warning signs include difficulty breathing.
 - Should we add "extreme" before "difficulty breathing"?
- **Unit 2, Post 2.**
 - Current text: Older people are at higher risk for severe illness from COVID-19 which may result in increased stress during a crisis. Stress during an infectious disease outbreak can include:
 - Suggested text with edits, based on feedback: People over 65 are at a higher risk for severe illness from COVID-19. This may also result in increased stress during a crisis. Stress during an infectious disease outbreak can include:

Please advise.

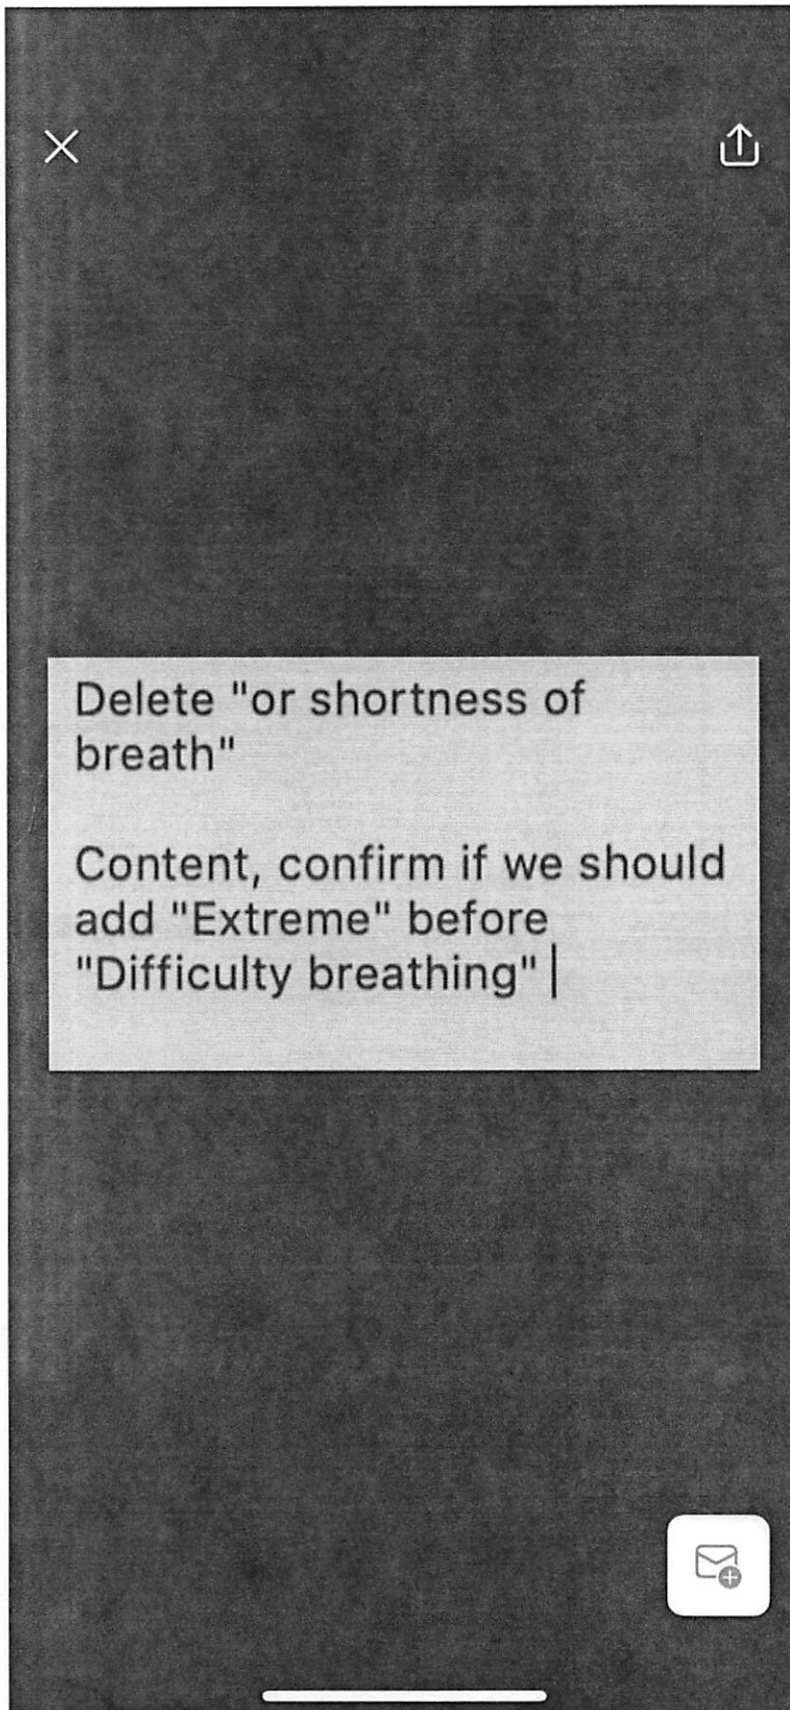

Thanks,
Kevin
